

# ONLINE COLLEGE ELECTION

**Date:** 02/09/2022

**Guide:** Ms. Anit James

1. Project Overview?

Online College Election System is our proposed platform to conduct elections in online mode. It is mainly focused on the convenience of conducting elections in college without spending more time on it and to make the process faster.

2. To what extend the system is proposed for?

In our proposed system, it provides an authorized access for students to the system, so that they cast their vote safely. Students need not to come to polling booth, instead they can take part in election by using a proper computer system or mobile hand set. Polling booth has no importance in our system, so it is avoided.

3. Specify the Viewers/Public which is to be involved in the System?

Users(Student)

4. List the Modules included in your System?

Admin, Department, User(Student)

5. Identify the users in your project?

Student

6. Who owns the system?

Admin

7. System is related to which firm/industry/organization?  
Election

8. Details of person that you have contacted for data collection?  
Mr. Albin C (Developer)

### **Questionnaires**

9. What are the ways in which you are taking sessions right now?  
Elections are conducted in offline mode.

10. How often will you be using the online voting system?

If you will be using the system more than once a school year and/or calendar year, then it makes sense to find a software application that is intuitive and easy to navigate. The learning curve should not be too steep, that is, it's easy to learn because as teachers, time is very precious and there aren't enough hours in the day to sit down and actually learn the software more so teach others to use it.

11. Is Online College Election is time consuming?  
No

12. What is the use of Online College Election?

It allows voters and election observers to verify that votes have been recorded and declared correctly, in a manner independent from the hardware and software running the election.

13. Are online election cost effective?

Yes

14. Is the online voting System is Secure?

Yes, Using admission number and password students register for voting and department checks the request and approve/reject the student.

15. Who can access the system?

Students

16. Is there is any validation in your system?

Yes, Student validation

17. Do you think online election are flexible?

Yes

18. Why do you prefer online College Election?

we provide an online platform to vote the candidate and avoid long queues infront of polling station.
